

OWNER'S MANUAL

Royal room service trolley

Model NO : 20783-RVS

MOVENDIS®
www.movendis.co.kr

Attention

1. This product is intended for use in Horeca services such as hotels and restaurants. It is not intended for use for any other purposes.
2. Always check that the wheels are locked before using the trolley.
If you don't keep it locked, trolley can move by itself in uneven floor.
3. Unlock the brakes while moving and be sure to lock the brakes when it is in standstill.
4. When using with a hot food warmer, make sure the hot food warmer is properly latched into the lower hook to prevent it from falling off.
5. Be careful not to injure your hands when folding or unfolding the trolley.
Your fingers may become trapped between the panels.
6. Be careful not to exceed the maximum load (100kg) of this product.
Excessive weight may damage the product.
7. Sudden changes of direction or rapid movement may cause the trolley to lose balance, increasing the risk of falling..
8. Before use, check for any abnormalities in the wheels or folding parts of the trolley.
If any abnormalities are found, please repair it immediately or contact Tiger.

Introduction

TIGER COMPANY's room service trolley is designed to deliver food quickly and safely to guests' requests within the hotel. This trolley enables efficient movement and space saving, and helps provide a high level of service to guests.

Product Features

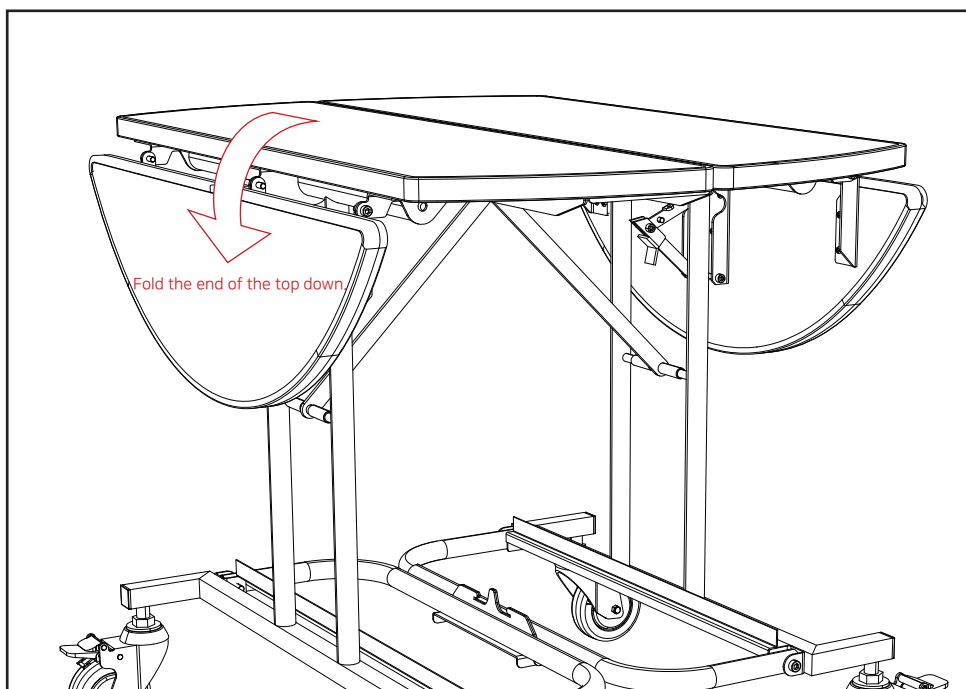

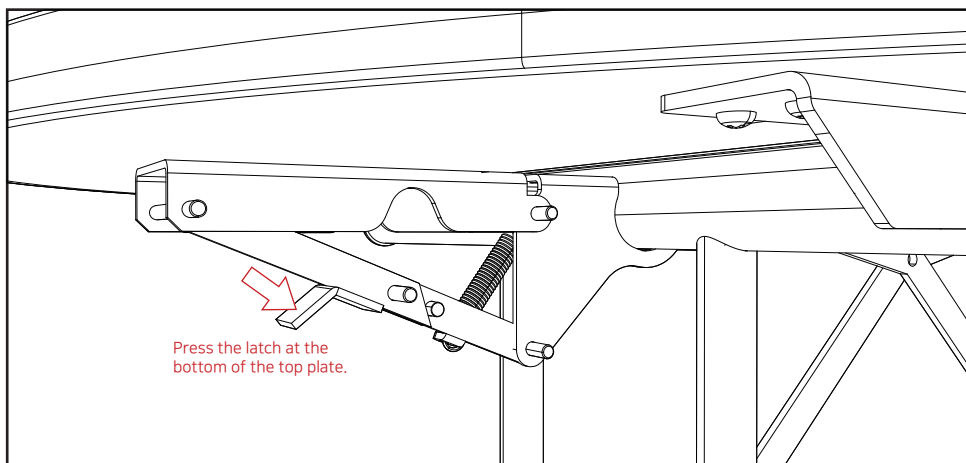

1. Folding panel: Designed to allow easy folding and storage of the trolley when not in use

■ How to fold the top 1/4 wing

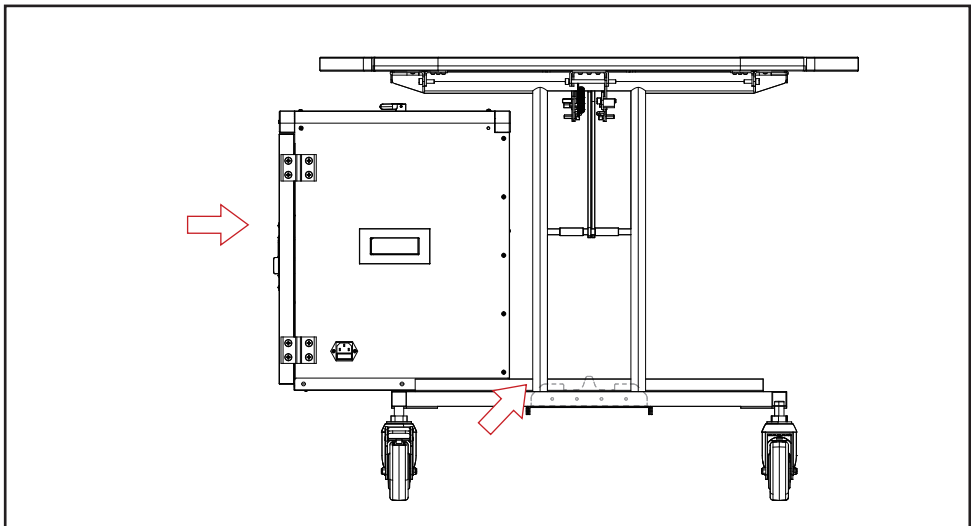

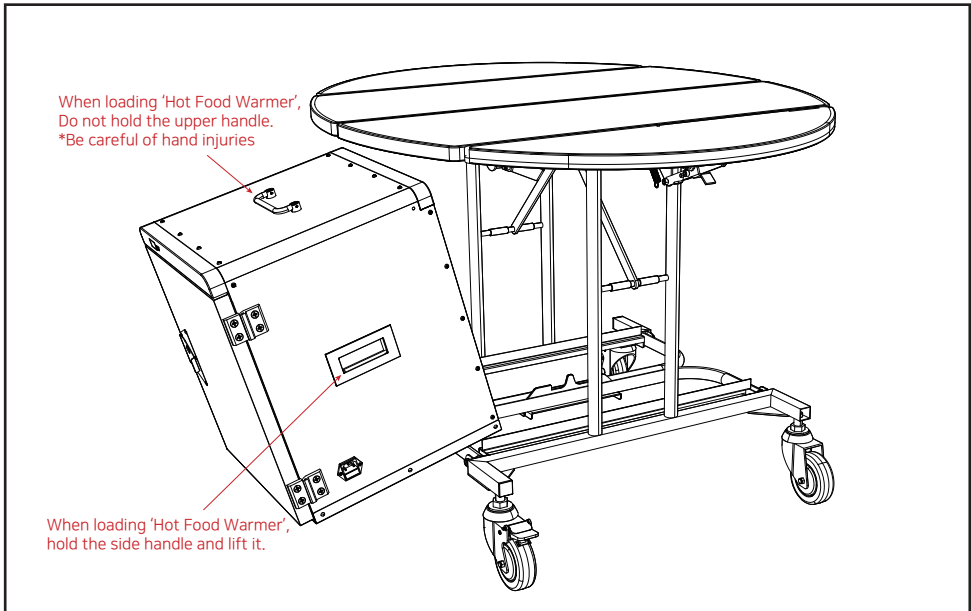

How to use

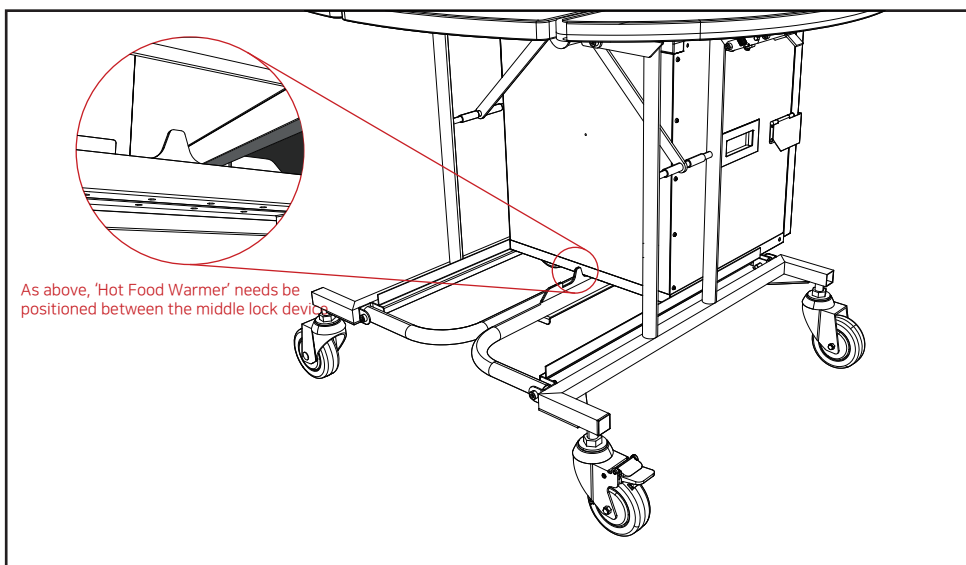

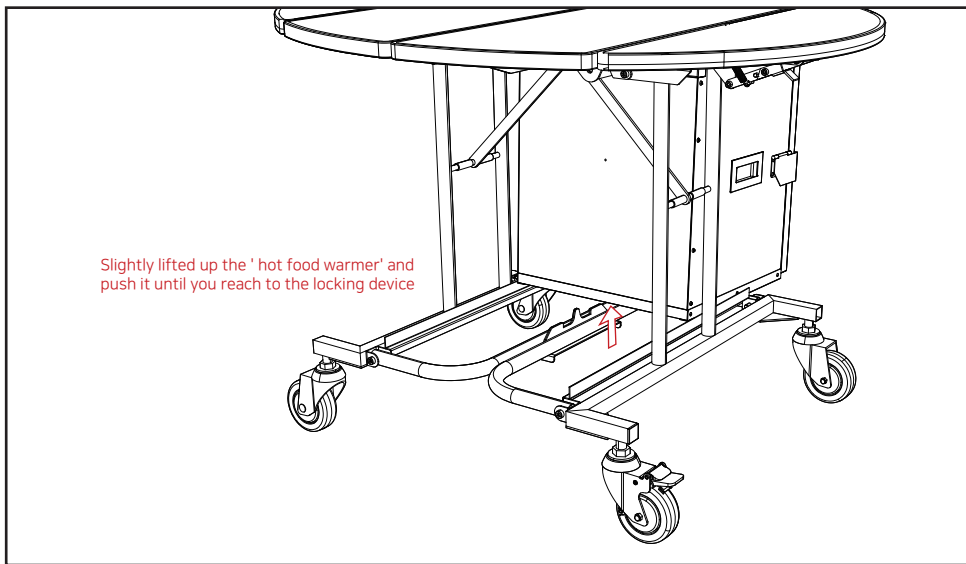

- How to fold the top in half (for storage)

How to use

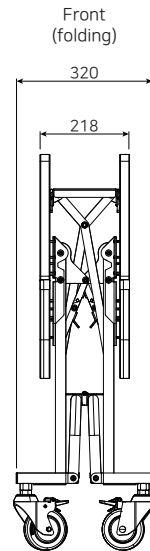

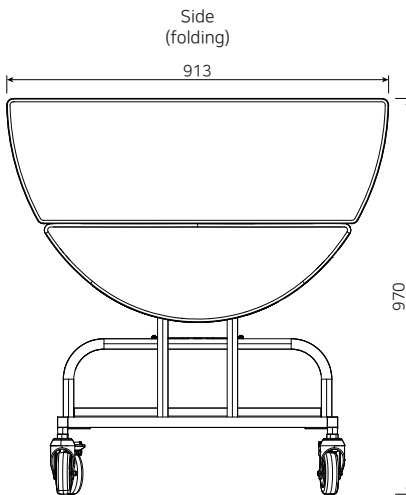

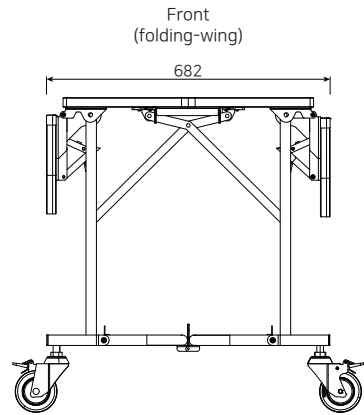

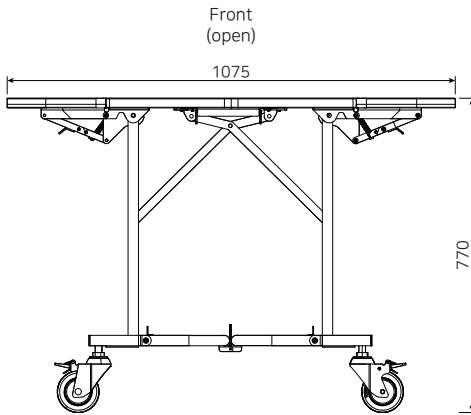

■ How to load 'Hot Food Warmer'

Specification

■ Folding Product Specifications

Cleaning

1. Surface Cleaning

Use a soft cloth: Wipe the surface of the trolley with a soft cloth.

Using soapy water or a neutral detergent is more effective.

Periodic Disinfection: Regularly disinfect the trolley to maintain hygiene.

A 70% or higher alcohol solution is suitable for hygiene maintenance.

2. Wheel Cleaning

Removing Foreign Substances: Use a brush to remove any dust or foreign substances stuck on the wheel.

If necessary, you can remove the wheel and clean the inside.

3. Frame Maintenance

Keep it in top condition by wiping it with a dry cloth or applying anti-rust oil and grease to each joint.

Maintenance & Solution

1. Regular maintenance

Wheel check: Check weekly to make sure the wheels turn smoothly and the locking mechanism works properly.

Replace worn wheels immediately.

Folding panel check: Check that the panels fold and unfold smoothly, and adjust them with lubricant if they fold stiffly.

Frame check: Check the frame monthly to make sure there is no warping or damage.

If damage is found, repair or replace immediately.

2. Parts Replacement

Wheel Replacement: If the wheels are worn out or make noise or vibration when moving, replace them with wheels of the same specifications.

3. Troubleshooting

If the wheel lock does not work properly

- There may be dirt on the wheel. Check the wheel, clean it and remove the dirt, and then use it again.

If the folding panel does not bend

- Check the folding part (spring, hinge, link part) for foreign substances, apply lubricant, anti-rust oil, and check the operation.

For all other abnormal findings, please contact our customer support center.
