MOVEN

## Welcome to MOVENDIS

Established in 1981, our company was the first to offer locally produced service trolleys and banquet furniture, which previously were relied on imported goods.

Over the past 44 years, we have developed and supplied uniquely designed, user-friendly products to the Korean and international market.

Founded in 1996, our sister company, Tiger, has established itself as a leading brand specializing in buffetware.

Currently, its products are exported to over 45 countries, and subsidiaries have been established in China and Italy to strengthen connections with global customers.

Through partnerships with various domestic and international hotel brands, we continue to grow into a globally recognized brand.

In 2024, Daijin launched MOVENDIS, a premium brand for banquet furniture and F&B trolleys.

Through collaboration with our corporate research institute and designers from Korea and abroad, we aim to introduce innovative and creative products that meet global standards and set new benchmarks in the international market.

We hope that MOVENDIS, built on 44 years of expertise, will enhance customer service and operational efficiency and become a beloved, trusted brand worldwide.

# DIS

# About us

## Key Points

- Established in South Korea in 1981
- Original manufacturer, designing and producing our products in-house from South Korea specializing in high-quality banquet furniture and F&B trolleys
- Premium-quality buffetware, is an affiliated company of Movendis
- Wide Range of Products from carpentry to metal work
- MOVENDIS means “moving” in Latin

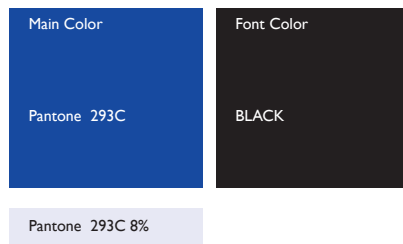

# Brand Identity

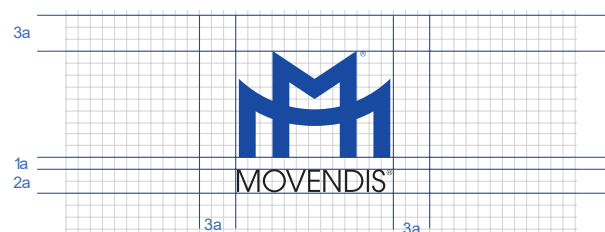

## 2.1 CI

## 2.2 Color

## 2.3 Element

# Global Network

## *Movendis in the world*

Building on the success achieved by Tiger, we are working to expand MOVENDIS's global distribution network across Asia, the Americas, and Europe.

# Process

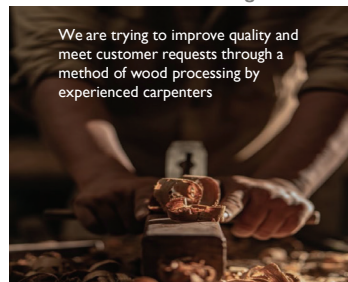

## Welcome to MOVENDIS, Where Customization Meets Craftsmanship

- 1 Research & Ideation**  
Exploring market needs and emerging technologies to generate innovative ideas.
- 2 Concept Development**  
Transforming ideas into tailored solutions through customer-focused customization and early-stage design planning.
- 3 Testing & Validation**  
Conducting rigorous tests to ensure performance, safety, and compliance with industry standards.
- 4 Optimization & Refinement**  
Improving prototypes through iterative development, focusing on efficiency and sustainability.
- 5 Commercialization**  
Bringing the final product to market with a focus on scalability and customer satisfaction.

**Steel Processing**

**Wood Processing**

**Quality Test**

## Folding buffet Station

Transform Any Space into a Gourmet Haven with Our Movendis Foldable Buffet Trolley

Introducing the ultimate solution for versatile buffet service :  
our Movendis Foldable Buffet Trolley! Whether you're hosting a grand banquet in a hall, a charming garden party, or a chic poolside gathering, this innovative trolley adapts to your every need.

## Cross Table

Elevate your events and gatherings with the new Cross Buffet Table, a perfect blend of functionality and elegance.

Designed with convenience in mind, this table is your go-to solution for any occasion, whether it's a casual get-together or a grand celebration

## Room Trolley

Designed with the best room service trolley that can be equipped with a thermal box to keep food warm to provide the best room service.

When stored, it can be folded and stored, so you can store it as much as you want with minimal space.

Eco trolley is a versatile, multi-purpose trolley born from MOVENDIS' innovative design. It sets a new industry standard with its modular configuration and exceptional mobility, allowing it to adapt seamlessly to various environments and situations

## Eco Trolley

F&B trolley range comprises a vast selection of gueridon and service trolleys with both classic and modern designs.

## F&B Trolley

#### **Intuitive interface for strength enhancement**

A small amount of force is applied to the handle by the pressure sensor to operate the motor without prior practice, familiarization and training.

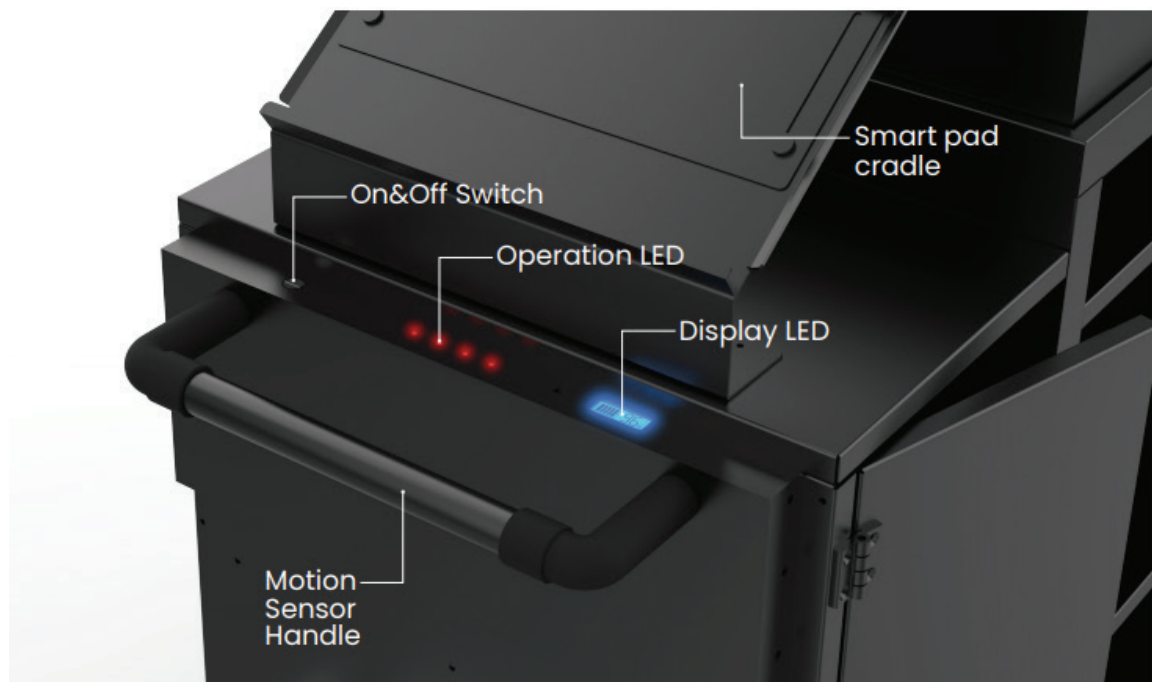

#### **Automatic brakes for easy use and safety**

It can be operated like a normal cart without a separate switch operation only by operating the power button by the handle sensor. Safe move with automatic brake system even on accident-prone downhill roads.

#### **Smart Motorized System**

The pHRI(physical human-robot interaction) technology used in muscle-enhancing wearable robots allows them to transport heavy objects as lightly as if moving on slippery ice.

## Motorized Maid Cart

Elevate your events and gatherings with the new Cross Buffet Table, a perfect blend of functionality and elegance.

Designed with convenience in mind, this table is your go-to solution for any occasion, whether it's a casual get-together or a grand celebration.

# MOVENDIS®

# Eco Trolley

Eco trolley is a great way to entertain and enhance your guests' experience.

EASY set up

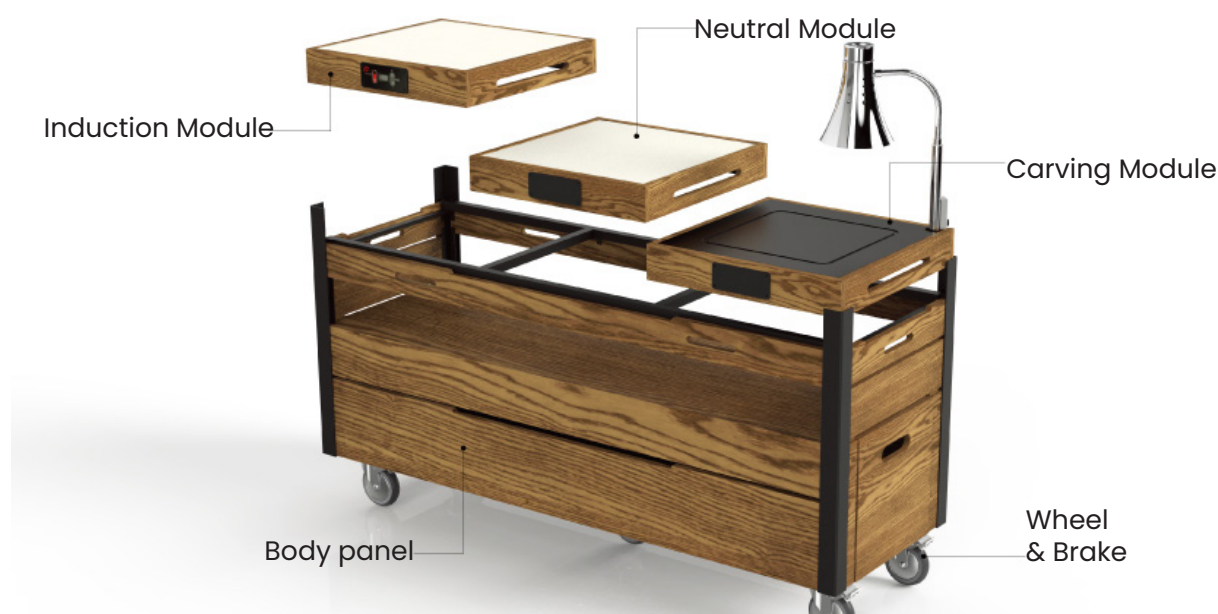

## INTRODUCTION

### ECO Trolley

Eco trolley is a versatile, multi-purpose trolley born from MOVENDIS innovative design. It sets a new industry standard with its modular configuration and exceptional mobility, allowing it to adapt seamlessly to various environments and situations.

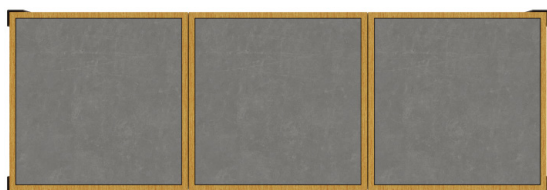

It can be selectively configured with various modules that can be installed based on the user's needs, efficiently supporting all tasks related to F&B service. Equipped with casters, it enables smooth and easy movement, even in narrow spaces, while ensuring a stable and reliable usage environment.

Eco trolley combines the luxuriousness and sophisticated design of wood, elevating the quality of any service space. Its natural wood texture and intricate details create a warm yet modern atmosphere, seamlessly blending practicality with aesthetic appeal. The trolley's high-quality craftsmanship ensures long-lasting durability and stability, making it suitable for use in a variety of environments.

## MODULES

### Neutral Module

Module(Neutral)Box

Material: Kerlite, MDF, Wood veneer  
Code: 20819-100-OP1(Ash), 20820-100-OP1(Oak)  
Size: L542 x W542 x H90 mm  
Weight: 5.9 kg

### Induction Module

Module(Induction)Box

Material: Kerlite, MDF, Wood veneer  
Code: 20819-200-OP1(Ash), 20820-200-OP1(Oak)  
Size: L542 x W542 x H90 mm  
Weight: 8.7 kg

### Cold Module

Module(Cold)Box

Material: Kerlite, MDF, ABS, HDPE, EPE, Wood veneer  
Code: 20819-300-OP1(Ash), 20820-300-OP1(Oak)  
Size: L542 x W542 x H90 mm  
Weight: 11.2 kg

### Carving Module

Module(Carving)Box

Material: Kerlite, MDF, ABS, Phenolic sheet, Wood veneer  
Code: 20819-400-OP1(Ash), 20820-400-OP1(Oak)  
Size: L542 x W542 x H533 mm  
Weight: 10.1 kg

### Ice Bed for Eco Module

Module(Cold)Box

Material: Kerlite, MDF, ABS, PMMA(Acrylic), Wood veneer  
Code: 20819-400  
Size: L425 x W425 x H162 mm  
Weight: 3.4 kg

## Harmony with Modern Elegance

Crafted in a warm wood tone, the trolley complements the mood of sophisticated restaurants, blending seamlessly with gourmet cuisine for a truly premium dining experience.

## Multi-Functional Trolley

The trolley offers multi-functionality, making it an indispensable asset in hospitality.

From serving beverages and light meals to functioning as an elegant event display cart, it adapts effortlessly to diverse service needs.

## Durable Design

The wooden shelves of this trolley feature a smooth texture and natural color, adding a touch of sophistication.

They serve as a striking interior element in a variety of settings, including hotel lobbies, restaurants, and conference rooms.

In addition, the Modern Service Trolley is extremely sturdy, designed to withstand daily use with ease.

## Palace Service Trolley 1

## Refined Handle Design

The ergonomic handle, elegantly integrated with polished metal fittings and golden accents, offers both comfort and style. Its seamless connection with the trolley's wooden frame highlights meticulous craftsmanship, ensuring effortless mobility while enhancing the trolley's distinguished appearance.

## Engaging Dining Performance

The trolley offers more than function — it creates a moment.

By enabling live roasting in front of guests, it brings an element of performance to the table, making the dining experience both engaging and memorable.

## Refined Craftsmanship

Finished with premium metallic handles and a luxurious wood tone, the trolley integrates naturally into upscale dining spaces, adding a touch of sophistication while ensuring durability for daily service.

# MOVENDIS<sup>®</sup>

# Motorized Maid Cart

Built with advanced motorized caster technology and intelligent engineering, this motorized housekeeping cart transforms routine service into a seamless, safe, and energy-efficient experience.

EASY<sub>set up</sub>

## Smart Motorized System ®

Power Up

Easy

Safety

### E-Driving Room Maid Trolley

- **Intuitive interface** for strength enhancement;

A small amount of force is applied to the handle by the pressure sensor to operate the motor without prior practice, familiarization and training.

- **Automatic brakes** for ease of use and safety;

It can be operated like a normal cart without a separate switch operation only by operating the power button by the handle sensor. Safe move with automatic brake system even on accident-prone downhill roads.

### Smart Motorized System

The pHRI(physical human-robot interaction) technology used in muscle-enhancing wearable robots allows them to transport heavy objects as lightly as if moving on slippery ice.

### Product specifications

Display: Dual LED 4ea / Max Load: 200Kg / Max Power: 500W / Battery: Lead-acid Battery (Rechargeable) \*NOT INCLUDED IN THE UNIT / Use time: 8 hours, / Continuous use time: 1 hour / Charging time: 6 hours / Maximum speed: 4-5 Km/h

## SPECIFICATIONS: Smart Motorized System

Stand-by

In Operation

### Operating method and status description

1. Press the power switch (1) to start driving naturally. Avoid holding the handle when pressing the power button to prevent sudden acceleration.
2. If the operation LED blinks, press the reset button (3). Releasing your hands from the handle will automatically stop the device (brake operation).
3. After 5 seconds, the red LED will turn on, as shown in Figure 2. If the operation LED blinks red, connect the unit to recharge.
4. Ensure the battery is charged before it fully discharges, as a completely discharged battery cannot be recharged.
5. To ensure safe operation, always charge the battery when the device is not in use. The battery is fully charged when all four red LEDs are illuminated.

# MOVENDIS®

# Banquet Bar Trolley & Mobile Back Bar

A high-end banquet bar trolley and back bar combine luxury and functionality with premium materials, elegant design, smooth mobility, ample storage, and lighting—perfect for upscale events and refined service presentation.

EASY Event

# INTRODUCTION

Mobile banquet furniture is a vital asset in hotels and banquet settings, offering exceptional versatility and operational efficiency. Its superior mobility allows flexible space usage, adapting seamlessly to various event types and room configurations. It also optimizes space utilization and enables rapid setup transitions, saving time and labor.

Designed for easy cleaning and maintenance, mobile banquet furniture is a practical and cost-effective investment.

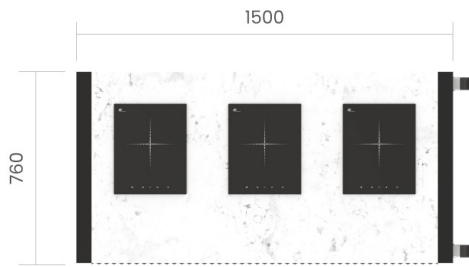

MOVENDIS's mobile banquet furniture is specifically engineered for events and corporate functions, featuring extensive customization options to meet individual needs and preferences. The product range includes Cooking Stations, Mobile Banquet Bars, and Back Bars—all equipped with high-quality casters for smooth mobility.

These features streamline event setup and breakdown, significantly enhancing overall operational performance.
